

ICTS Region I Newsletter no. 16 (24 April 2003)

Next edition : 22/05/03

1. ICTS Meeting at ETTC'03 (11 June 2003, Toulouse, France)

(See attachments A1 – A2)

The ICTS Meeting will be held at ETTC at 14:00 on Wednesday 11 June. The ETSC Meeting is due to be held on Tuesday 10 June, 13:30-15:30.

See [A1](#) (ICTS) and [A2](#) (ETSC) for the respective updated Agendas.

Please note that SFTE European Chapter members are cordially invited to attend the ICTS meeting.

There will be a preparatory ICTS Board onsite at 15:30 on Tuesday, 10 June immediately after the ETSC meeting.

2. Meeting at EADS Manching, Germany, 12 March 2003 on WRC'2007 Point 2.12

(See Attachment A3)

Gerhard Mayer, ICTS Vice-Chair, presents us with the minutes of this important meeting held in Germany.

"Letters to the Editor"

We've received the following encouraging message from Eduardo Bergamini in Brazil relating to point 2.12 of the preliminary agenda of WRC2007 :

I have just received a call from my contact with the Brazilian Delegation to ITU. He - confirmed- to me that a favorable attitude continues to exist from the part of Brazil concerning Item 7 of the CMR 03 Agenda, toward confirmation of the Item 2.12 related to the WRC 2007 event. Brazil will, naturally, be attending the upcoming WRC 2003 event.

Eduardo W. Bergamini, ICTS Member, Brazil e.w.bergamini@stanfordalumni.org
jmberges@voila.fr

I have been informed this morning by Joachim Strick, the Chairman of the national (German) preparation of the WRC'2003, that the provisional agenda point 2.12 of WRC'2007 was discussed at the last meeting, as addressed by the French and German delegations. It received a very positive response. Mr Stick is optimistic about the support of the CEPT at WRC'2003. The final CEPT preparatory meeting is in two weeks' time.

Gerhard Mayer, ICTS Vice-Chair, Germany..... gerdvitus.mayer@t-online.de

We have received more positive information (subject to US official approval) from Darrell Ernst, Mitre Corp., USA, regarding point 2.12 of the preliminary WRC'07 agenda to be discussed next June in Geneva.

We learned a few days ago that the US recommendation will probably be to limit the proposal to the 3-8 GHz region. This is not yet final. I believe this is close to the French position. We have good industry support.

We need to keep in mind that the US position must go through the formal drafting process. I heard a rumour that the position might go in as "3-15 GHz" in order to allow negotiating room, but we in the flight test community have made clear to the authorities that we would have difficulty operating much above 5 GHz, and that it is important that we be harmonized with Europe.

Darrell Ernst, Mitre Corp., USA..... dernst@mitre.org

The Editorial team would like to remind you that Point 2.12 will be subject to further discussion at a CEPT meeting later this week in Madeira.

ICTS-RELATED EVENTS YEARPLANNER
